PROJECTS

Roadside Assistance Web Application

2025

Full-Stack Development | Django & Frontend Integration

Developed a comprehensive full-stack service booking platform with complete user journey. Implemented secure user authentication, dynamic service selection, advanced booking workflows, and integrated payment confirmation modules. Designed responsive UI using Bootstrap and utilized Django ORM for efficient database management. Customized admin panel for comprehensive management of users, services, and bookings.

Tech Stack: Django • Python • HTML5 • CSS3 • JavaScript (ES6+) • Bootstrap • ORM • MySQL

Frontend Development | E-Commerce

Built a fully responsive e-commerce platform featuring dynamic product listings, shopping cart functionality, and intuitive user interface. Implemented interactive features including product filtering, real-time cart updates, and seamless checkout experience.
